

## ELIGIBILITY ISSUE:

There was some discussion made and disappointment expressed on the part of one school relating to the late acquisition on an Austine player. The chairperson did check with the Sharon Graney, President to confirm that it was legal for this girl to play.

The player, who was a former student returned to Austine and was enrolled the week of the tournament. As it turned out, the girl was the 5<sup>th</sup> player on the squad since another player did not stay for the tournament due to illness.

Had this player been on the team in December, the seeding would have undoubtedly been much different. The question was asked if there was a way to legislate this from happening in the future, such as a cut off date, or other rule established to prevent this from re-occurring. President Graney gave the opinion that this had been brought up in one form or another and was never passed by the Athletic Directors.
